

WHAT TO BRING TO YOUR APPOINTMENT

Measurements | Pictures (Houzz, Pinterest, etc.). | Samples (i.e. tile, paint chips etc.)

Think "style & tile" principle first. What is the style of the room I am trying to create, and what is the material and color of floor that I am doing (make sure to print off pictures of the style of bath you are looking at creating and get a sample of the floor to bring with you to your appointment).

Questions?

- 1. What are you trying to achieve? Before you do anything, think about what your ideal bathroom would be. Forget constraints of money and space; just imagine what you want and what the intended purpose will be.
- 2. How many people will use the bathroom?
- 3. How much time do you spend in the bathroom during the morning, afternoon and evening?
